1. [redacted] there were four destroyers alongside the eastern breakwater at Constanta.
2. Two of the destroyers had three funnels. Due to misty conditions no details could be observed, but they appeared to have torpedo tubes forward in the waists.
3. The two remaining destroyers had two funnels each. Their main armament consisted of two guns in turrets forward and aft; they were also fitted with radio and radar.

Comment. It would appear that the MARASTI had joined the MARASESTI and thus all the destroyers of the Rumanian Navy were at Constanta.
